

Emily and William Hamilton

Over the past 12 months Emily and William have been a huge help to mum and dad, helping with housework and caring for their 2 dogs while mum has suffered with a displaced spinal disc and been hospitalised on numerous occasions.

William, then aged 6, phoned 999 when mum's spinal disc displaced, and then rang dad to come home. Emily has helped with getting mum dressed on days when she couldn't even get out of bed. Through all this they didn't complain when they were unable to have holidays or days out and still carried on with their school work and even joined a community litter pick.
